

Become Our Trainer

All professions need certain specific skill sets that can be learned either through instructor-led training or hands-on experience.

At Aryan Engineering, we follow the blended learning model whereby participants can avail the benefits of well researched online training as well as instructor-led classroom pedagogy. To facilitate such world class training, we are constantly on the lookout for qualified trainers for our wide range of courses across the countries.

Requirements:

- Relevant certification. For example: PMP, SIGMA, and API
- Prior experience in training corporate batches and open-house batches
- Good communication skills
- Willingness to travel

How this works

Join us: Drop in your details at info@aryanengineering.com and we will invite you to an online demo session. If you qualify, you become a part of our amazing family.

We'll do the magic: We will help you throughout your session, from getting candidates. We organize the online seminar/ webinars to host by yourself.

Mentor: Walk in and do what you do best.

Start Earning: Start with a competitive package, which only gets better as you grow in the organization.
